Introductory Remarks

- Traffic figures are measured from 7am to 10am so as to provide an early indicator each day.
- Weekly heavy goods vehicle traffic has remained largely stable and accordingly the daily figures provided are for cars only.
- The changes recorded day-to-day are not cumulative – they compare only the current day's figures versus the same day in the previous week, the same day last year and with the same day prior to the introduction of Level 3 restrictions on 7th October (i.e. Wed 30th Sept to Tues 6th Oct).
- Initial restrictions were put in place on Thursday 12th March 2020. Countrywide Level 5 restrictions were in place from Friday 30th October to Tuesday 1st December and were reintroduced on 31st December 2020.

Daily Data for Tuesday 11th May

- An incident on the M50 during the observed period this morning significantly impacted on the traffic volumes recorded.
- In general, this morning's traffic volumes show substantial increases as compared with Tuesday 4th May 2021. Traffic volumes across most of the traffic counters are now at or above the levels experienced before the introduction of Level 3 restrictions in October of last year.
- Car traffic just south of the Northern Ireland Border on the N1 at Jonesboro shows a -2% decrease as compared with Tuesday 4th May and a +8% increase since the start of the October Level 3 restrictions.
- In the case of the non-motorway border counter sites, traffic volumes today show changes of between -4% and +9% as compared with Tuesday 4th May. The changes in car traffic volumes since the application of October Level 3 restrictions ranges from 0% on the N3 north of Belturbet to +11% on the N15 south of Lifford.
