

Note

The following Table provides traffic trend information derived from a small sample set of traffic counters located on the national road network.

The information below covers the morning period from 7am until 10am. The trend for car traffic from this period of the day generally correlates closely with the overall daily trend in car traffic at each location.

This summary is produced daily.

 Transport Infrastructure Ireland National Road Car Traffic Report Morning Period (7am – 10am)			
Wednesday 17th June 2020			
Traffic Counter	Traffic Volume (Cars Only)	Comparison with same day 2019	Comparison with same day last week
M50 J6-J7 (N3 Navan Road to N4 Galway Road)	15,473	-44%	+5%
M1 North of J20 (South of Border at Jonesboro)	1,817	-48%	+7%
M1 J2-J3 (Dublin Airport to Swords)	11,928	-37%	+4%
M4 J6-J7 (Between Celbridge and Maynooth)	6,406	-38%	+2%
N6 Bóthar na dTreabh, Galway	2,746	-42%	+6%
M7 J29-J30 Limerick SRR (Ballysimon to Rosbrien)	5,003	-43%	+6%
N7 J3-J4 (Citywest)	11,558	-39%	+4%
M9 J11-J12 (Mullinavat to Waterford)	1,330	-41%	+9%
M11 J5-J6 (Between Bray North and Bray Central)	7,880	-40%	+3%
N40 Cork SRR (Kinsale Road to Douglas)	10,507	-36%	+6%

Introductory Remarks

- In the initial three weeks following the introduction of the March 27th restrictions, traffic volumes were very consistent. Overall traffic volumes were typically down approximately 65-70% across the national road network.
- From Tuesday 21st April, an upward trend in car traffic volumes became apparent.
- In response, daily traffic figures are being provided in order to more closely monitor the trends. Traffic figures are measured from 7am to 10am so as to provide an early indicator each day.
- Weekly heavy goods vehicle traffic has remained largely stable and accordingly the daily figures provided are for cars only.
- The changes day-to-day are not cumulative – they compare only the current day's figures versus the same day in the previous week and the same day last year.

Daily Data for Wednesday 17th June

- The increase in car traffic volumes today as compared with Wednesday 10th June is generally lower than the growth rates experienced yesterday across the sample traffic counters.
- Overall, car traffic today is typically down by between 36% and 48% of the volumes of one year ago, across the sampled traffic counters.
- Car traffic just south of the Northern Ireland Border on the N1 at Jonesboro is up 7% today as compared with Wednesday 10th June. The overall reduction in car traffic at this counter is now 48% - the first time in the present situation that more than 50% of the previous volume of car traffic at this location has been recorded.
- Car traffic volumes on the radial routes into Dublin show an increase this morning as compared with Wednesday of last week of between 2% and 4%. Car traffic is up 4% on the M1 at Swords to Airport, 4% on the N7 at Citywest, 3% on the M11 at Bray and 2% on the M4 at Celbridge-Maynooth.
- The M50 (N3 Navan Road to N4 Galway Road) shows a 5% increase as compared with Wednesday 10th June. This is consistent with the growth rates recorded today on the radial approach routes.
- In the case of the regional cities the increase in car traffic volumes this morning as compared with Wednesday 10th June is as follows: M9 Waterford 9%, N6 Bóthar na dTreabh Galway 6%, M7 Limerick 6% and N40 Cork 6%. These traffic growth figures are somewhat higher than the levels of growth recorded today on the radial approaches to Dublin.
