

Note

The following summary Table, produced daily, provides traffic trend information derived from a small sample set of traffic counters located on the national road network.

The information below covers the morning period from 7am until 10am. The trend for car traffic from this period of the day generally correlates closely with the overall daily trend in car traffic at each location.

 Transport Infrastructure Ireland National Road Car Traffic Report Morning Period (7am – 10am)				
Friday 18th December 2020				
Traffic Counter	Traffic Volume (Cars Only)	Comparison with same day 2019	Comparison with same day last week	Comparison with same day pre-Level 3
M50 J6-J7 (N3 Navan Road to N4 Galway Road)	20,708	-9%	+4%	+10%
M1 North of J20 (South of Border at Jonesboro)	2,595	-15%	+8%	+9%
M1 J2-J3 (Dublin Airport to Swords)	15,394	-10%	0%	+5%
M4 J6-J7 (Between Celbridge and Maynooth)	8,391	-3%	+4%	+8%
N6 Bóthar na dTreabh, Galway	3,552	-16%	-2%	+1%
M7 J29-J30 Limerick SRR (Ballysimon to Rosbrien)	7,162	-16%	+1%	+2%
N7 J3-J4 (Citywest)	14,915	-6%	+6%	+12%
M9 J11-J12 (Mullinavat to Waterford)	1,820	-3%	+5%	+8%
M11 J5-J6 (Between Bray North and Bray Central)	11,848	-4%	+7%	+8%
N40 Cork SRR (Kinsale Road to Douglas)	14,488	-13%	-1%	+4%
N2 (20024) north of Monaghan	665	-4%	+10%	+17%
N3 (20036) north of Belturbet	449	-9%	+4%	+5%
N13 (1131) east of Derry	995	-34%	-4%	+10%
N15 (1151) south of Lifford	545	-31%	-1%	+4%
N16 (1161) east of Manorhamilton	330	+7%	+9%	+13%

Introductory Remarks

- From Tuesday 21st April, an upward trend in car traffic volumes became apparent. In response, daily traffic figures were provided by TII from 29th April in order to more closely monitor traffic trends. Traffic figures were measured from 7am to 10am so as to provide an early indicator each day.
- Weekly heavy goods vehicle traffic had remained largely stable and accordingly the daily figures provided were for cars only.
- The changes recorded day-to-day are not cumulative – they compare only the current day's figures versus the same day in the previous week and the same day last year.
- With the introduction of countrywide Level 3 restrictions from midnight on Friday 9th October, TII has again reverted to providing a daily update.
- From Friday 16th October, following the introduction of Level 4 restrictions in the border counties of Cavan, Monaghan and Donegal, counters close to the border on the N2, N3, N13, N15 and N16 have been added.
- Countrywide Level 5 restrictions were in place from Thursday 22nd October to Tuesday 1st December.

Daily Data for Friday 18th December

- Today's car traffic figures generally show increases in volumes as compared with Friday 11th December. The traffic volumes from the same day in 2019 were lower than expected, possibly impacted by Christmas travel; this impacts today's comparison with that day. Overall across a majority of the traffic counters, volumes this morning are above the levels experienced before the implementation of Level 3 restrictions.
- Overall, car traffic today is typically down by between -31% and -4%, with one site showing an increase of +7%, of the volumes of one year ago, across the sampled traffic counters.
- Car traffic just south of the Northern Ireland Border on the N1 at Jonesboro shows an increase of +8% as compared with Friday 10th December and an increase of +9% since the start of the Level 3 restrictions on 5th October.
- In the case of the non-motorway border counter sites, traffic volumes today show changes of between -4% and +10% as compared with Friday of last week. The changes in car traffic volumes since the application of Level 3 restrictions ranges from -4% on the N15 south of Lifford to +17% on the N2 north of Monaghan. It should be noted that traffic volumes at the N2, N3, N14, N15 and N16 counters are lower than at the motorway traffic counters and are likely to display wider fluctuations in traffic figures than other traffic counters.
- For car traffic volumes on the radial routes into Dublin, comparisons with Friday of last week are as follows: +6% on the N7 at Citywest, +0% on the M1 at Swords to Airport, +7% on the M11 at Bray and +4% on the M4 at Celbridge-Maynooth. Comparisons with the same day prior to the start of the Level 3 restrictions on 5th October are as follows: +5% on the M1 at Swords to Airport, +8% on the M11 at Bray, +8% on the M4 at Celbridge-Maynooth and up +12% on the N7 at Citywest.
- The M50 (N3 Navan Road to N4 Galway Road) shows an increase of +4% compared with Friday 11th December and a +10% increase as compared with pre-Level 3 traffic.
- In the case of the regional cities the changes in car traffic volumes this morning as compared with Friday 11th December are as follows: M9 Waterford +5%, N6 Bóthar na dTreabh Galway -2%, N40 Cork -1%, and M7 Limerick +1%. Comparisons with the same day prior

to the start of the Level 3 restrictions on 5th October are as follows: N6 Bóthar na dTreabh Galway +1%, N40 Cork +4%, M7 Limerick +2% and M9 Waterford +8%.
