

### **BELINSTOWN TO** SWORDS STOP

AREA MN101 (PART 1 - CHAPTER 1) VOLUME 2 - BOOK 1 OF 7

### **ENVIRONMENTAL IMPACT** STATEMENT - METRO NORTH

### **BELINSTOWN TO SWORDS STOP**

**AREA MN101 VOLUME 2 – BOOK 1 OF 7** 

#### **ENVIRONMENTAL IMPACT STATEMENT**

For ease of local identification this Environmental Impact Statement (EIS) has been divided into seven areas. These areas are numbered Area MN101 to Area MN107 inclusive going from Belinstown in north County Dublin to St. Stephen's Green in the city centre.

The environmental impact of the proposed scheme in each of these areas is set out in individual books numbered MN101 to MN107 and which collectively make up Volume 2 of this EIS.

The Environmental Impact Statement (EIS) is being published in three separate Volumes as follows:

### **VOLUME 1**

Introduction to the scheme and a description of the receiving environment

### Volume 1 of the EIS is set out in 25 Chapters as follows:

Chapter 1 Introduction

Chapter 2 Need and Objectives

Chapter 3 Legislation

Chapter 4 Planning and Policy Context

Chapter 5 Alternatives

Chapter 6 Description of the Scheme

Chapter 7 Consultation

Chapter 8 Human Health

Chapter 9 Difficulties Encountered

Chapter 10 - 25

Description of the baseline environment

### **VOLUME 2**

Environmental Impact - Area MN101

Environmental Impact - Area MN102

Environmental Impact - Area MN103

Environmental Impact - Area MN104

Environmental Impact - Area MN105

Environmental Impact - Area MN106

Environmental Impact - Area MN107

### Volume 2 of the EIS is set out in 18 Chapters as follows:

Chapter 1 Introduction to Areas MN101 -107

Chapter 2 Human Beings: Landuse

Chapter 3 Human Beings: Socio-economics

Chapter 4 Human Beings: Noise

Chapter 5 Human Beings: Vibration

Chapter 6 Human Beings: Radiation and Stray Current

Chapter 7 Human Beings: Traffic

Chapter 8 Flora and Fauna

Chapter 9 Soil and Geology

Chapter 10 Groundwater

Chapter 11 Surface Water

Chapter 12 Air and Climatic Factors

Chapter 13 Landscape and Visual

Chapter 14 Material Assets: Agronomy

Chapter 15 Material Assets: Archaeology, Architectural Heritage and Cultural Heritage

Chapter 16 Material Assets: Non Agricultural Property

Chapter 17 Material Assets: Utilities

Chapter 18 Interrelationships, Interactions and Cumulative Impacts

### **VOLUME 3**

Book 1 of 2

Specialist maps – baseline and impact

Book 2 of 2

Annexes to the EIS

### Volume 3 of the EIS is set out in 2 books.

Book 1 of 2 contains all baseline and impact assessment maps and Book 2 of 2 contains annexes to the EIS e.g. technical reports.

**EIS NON-TECHNICAL SUMMARY (NTS)** 

### **EIS METHODOLOGY**

The methodology used in this EIS generally involves the following steps:

- Definition of the study area;
- Data collection and description;
- Baseline description and evaluation;
- Identification of potential environmental impacts and the potential areas to be affected;
- Description and evaluation of the impacts;
- Derivation of mitigation measures to minimise the impact;
- Description of the residual impacts of the scheme.

Further detail in relation to the EIS methodology is provided in Volume 1 of the EIS.

### ENVIRONMENTAL IMPACT STATEMENT STUDY TEAM

The EIS was prepared on behalf of the Railway Procurement Agency (RPA) by a study team led by Environmental Resources Management (Ireland) Ltd, who were responsible for the overall assessment management and co-ordination as well as for the production of the Landuse, Socio-economics, Noise, Vibration (part), Radiation and Stray current, Flora and Fauna, Soil and Geology (part), Air and Climatic factors, Non Agricultural Property and Utilities chapters of this EIS. The other members of the study team are outlined in the table below.

and Cultural Heritage

### **AVAILABILITY OF THE EIS**

This EIS is available to download for free through the RPA website at www.dublinmetronorth.ie

Copies of this EIS including the Non-Technical Summary may be purchased by any member of the public during normal office hours at the following location:

Railway Procurement Agency (RPA) Parkgate Street Dublin 8

The EIS may be purchased as a complete document for a sum of €170.00 (Volumes 1, 2 & 3)

The EIS can also be purchased as individual books e.g:

- Copies of Volume 1 may be purchased for €30.00 each:
- Copies of Volume 2 (individual book e.g. MN101) may be purchased for €15.00 each;
- Copies of Volume 3 (individual books e.g. Book 1 of 2) may be purchased for €15.00 each;
- Copies of the NTS of this EIS may be purchased for €5.00 each.

A DVD version of the whole EIS may be purchased for €15.00 which includes Volume 1; Volume 2 (Area MN101 – MN107); Volume 3 (Book 1 of 2 and Book 2 of 2) and the Non-Technical Summary.

# INTRODUCTION TO AREA MN101

Metro North is the next phase of Dublin's integrated light rail network. The proposed scheme will serve an 18km corridor from Belinstown in the north of County Dublin to St. Stephen's Green in the city centre via Dublin Airport.

Metro North is a light rail system running on a line of sight basis, at grade, in underpasses or on elevated sections between Belinstown and Fosterstown and under full signal control on a segregated alignment between Fosterstown Stops and St. Stephen's Green. Metro North will run in a mix of bored and cut and cover tunnels beneath the city and Dublin Airport.

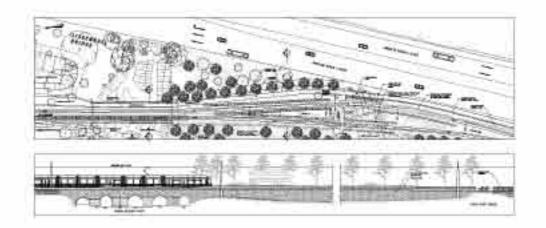

For ease of local identification, in this EIS the proposed scheme is divided into seven areas. These areas are numbered Area MN101 to Area MN107 inclusive going from Belinstown in north County Dublin to St Stephen's Green in the city centre. The environmental impact of the proposed scheme in each of these areas is set out in individual books numbered MN101 to MN107 which collectively make up Volume 2 of this EIS. This document relates to **Area MN101** Belinstown to Swords Stop.

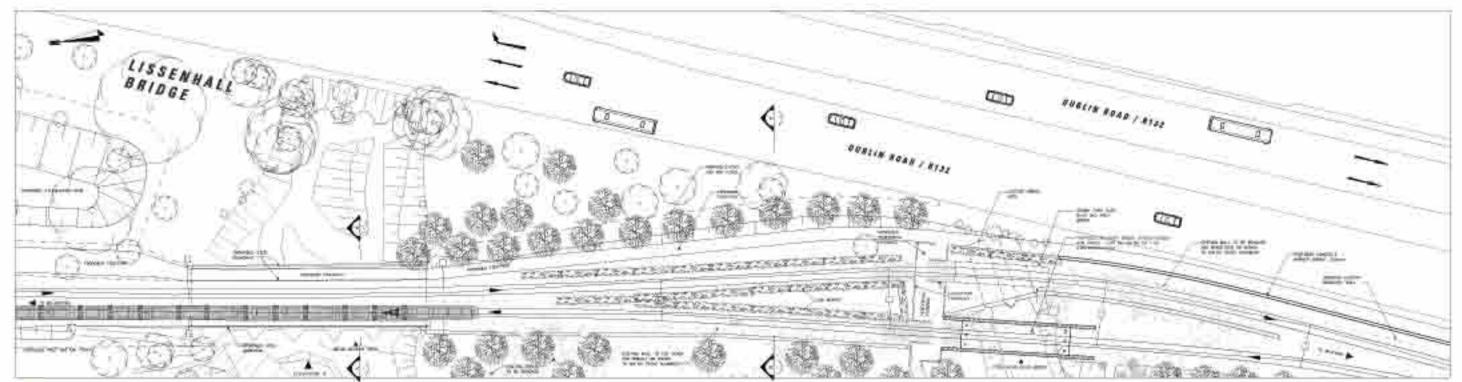

Area MN101 begins at Belinstown which is located approximately 1.6km to the north of Swords, adjacent to and directly west of the M1 motorway, on land that is currently used for agriculture. The maintenance and stabling facilities for the proposed scheme are located at the depot in this area. A 110kV substation serving the scheme is to be located in this area. The northern terminus stop of the scheme, Belinstown, lies immediately southwest of the depot. A Park & Ride facility with 2,000 parking spaces, designed as a multi-storey car park, is planned adjacent to the stop.

From Belinstown, the proposed route passes southwards, across green field land at surface level, to a provisional stop at Lissenhall. This stop is located in a green field site to the west of the interchange between the M1 and R132 in an area of potential development proposed by Fingal County Council. The route continues southwards and crosses the Broad Meadow River and the Ward River and then runs at surface level along the western verge of the R132 to a second provisional stop at Estuary. The route then rises up onto an elevated section of track which crosses over the Estuary Roundabout, travels along the median of the R132 and over the Seatown Roundabout before descending to reach the next at grade stop, at Seatown. The Seatown Stop is located in the central median of the R132. The Estuary and Seatown Roundabouts are to be converted to signal controlled junctions.

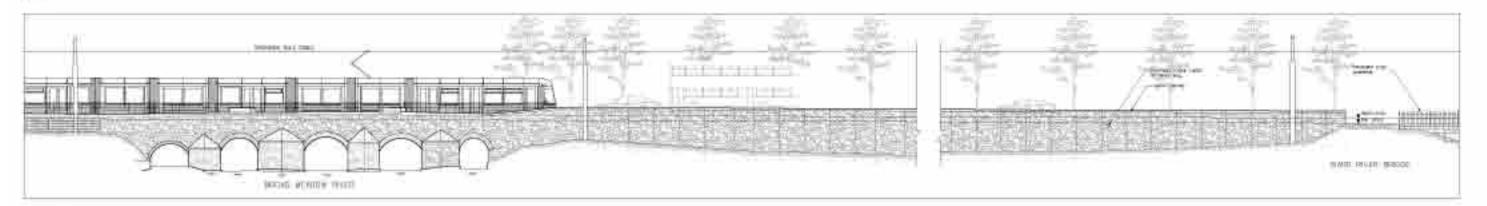

After Seatown Stop, the route proceeds southwards on the surface along the central median of the R132 and then descends to pass under the Malahide Roundabout. To the south of the roundabout, the route emerges from the underpass and rises to the surface in the median of the R132 to the Swords Stop which is located opposite the Pavilions Shopping Centre. Initially, access to this stop is by pedestrian crossings of the R132. However, provision is made to allow this stop to be accessed from a possible future east-west bridge over the R132. Swords Stop marks the end of Area MN101.
